

# FOSSIL GROUP

June 7, 2022

To Whom It May Concern:

At Fossil, we know that our customers are concerned about product safety and so are we. We take product safety and compliance very seriously.

This letter is to confirm that Fossil Group has tested its product construction according to the AS/NZS 62368.1:201 Standard concerning the safety of products containing button/coin cell batteries. These tests were performed by an accredited 3<sup>rd</sup> party laboratory and the tested product is compliant with the Standard. These tests cover all styles on the product lists attached.

If there are any questions please contact Senior Director of Supplier Compliance, Nikki Gill, [ngill@fossil.com](mailto:ngill@fossil.com).

Sincerely,

Nikki C. Gill  
Senior Director, Supplier Compliance
